## *The most important person in our partnership?* **You...**

The publication of this catalogue is good news for Draper and great news for you, our customers.

Why?

Because it marks a milestone in our quest to deliver better supply and improved service to an increasing number of businesses.

With Delta International now firmly part of the Draper family, we are significantly closer to realising that vision – right across Europe.

For us, the partnership between Draper Tools and Delta International, which began in November 2020, represents a meeting of minds and a combination of complementary strengths and skill sets.

Soon, the deeper integration and natural progression of our partnership will see us changing our trading name from Delta International to Draper Tools. So, we'll truly be one family.

For you, this coming together is the gateway to a future of more products, more readily available, through a bigger and stronger international distribution network.

That future can now be seen taking shape as we create our state-of-the-art warehouse at Weert, Holland.

With a total available plot size of 10,000m<sup>2</sup> and the support of an amazing international sales team, this logistical hub will eventually offer you a choice of over 10,000 lines delivered direct from our factories across the world to practically any destination in Europe.

Efficiently. Cost effectively. And with unrivalled levels of customer service.

It's a big investment for us.

But, more importantly, it's a long-term commitment to you.

**In a rapidly changing world, Draper is here to bring you whatever you need - wherever you need it.**

### More space

In March 2021, our new warehouse at Weert with its 4,500m<sup>2</sup> logistics centre immediately opened up fresh possibilities for international expansion. And with a total plot size of 10,000m<sup>2</sup>, there are huge possibilities for further growth in the very near future. You can be confident that we are very likely to have whatever you need in stock as our warehouse continues to grow.

### Bigger choice

Starting with an inventory of some 600 products when it opened, we are rapidly increasing the lines available from Weert. An extra 1,500 Draper tools are already in stock, 1,000 more will be added very soon – and, at full capacity, the warehouse will carry in excess of 10,000 lines supplied direct from our factories. So, you can expect more choice and all the efficiencies that come with simpler logistics.

### Better service

Draper Tools and Delta International have both built enviable reputations for simple, straightforward, no quibble customer service. Now we are one organisation, our international sales specialists will build on those foundations to create enduring relationships for the future. We look forward to serving you.

## Hose Clamp Pliers

Stock No. 99762

As a professional mechanic, you often work in tight spaces. Fortunately, our Tag and Wire Hose Clamp Pliers feature swivel jaws that adjust to different angles - even when room is limited. Comfort won't be an issue either, thanks to PVC handles that provide a better grip so you can work for longer periods. Removing or installing tag and wire type hose clips is easy, thanks to the addition of a ratchet locking mechanism that tightens as you squeeze - securing the clamp in place and exerting less pressure on your hands. At just 227mm in length, our pliers will fit comfortably in your pocket (but won't leave you out of pocket).

## Digital Gauge Air Line Inflator with Twin Connectors

Stock No. 74839

Compliant with BS EN12645

Expert Quality, digital air line gauge. Its highly accurate industrial quality fabrication make it suitable for use on garage forecourts and tyre fitting bays. Fitted with a large LCD backlit screen with multi - pressure unit and twin connectors. Supplied with calibration certificate and two AAA batteries.

Pressure range:	0.3-17.2 bar/4-250psi
Min air supply:	3bar / 44psi
Max air supply:	18bar / 260psi
Operating temp range:	-15 ~ 55°
Supply inlet:	1/4" BSP taper (F)
Hose length:	0.53m

## Hi-Flo Inflator with Lock-On Connector

Manufactured and certified to Directive 86/217/EEC

Expert Quality, new and improved MK4 airline inflator. Its industrial quality fabrication makes it suitable for use on garage forecourts and tyre fitting bays. Fitted with a lock-on connector, 20% larger viewing window, stronger yet lighter body and increased accuracy. Supplied with calibration certificate.

Pressure range:	0-9.6bar/0-138psi
Min air supply:	6.9bar/100psi
Max air supply:	13.8bar/200psi
Operating temp range:	10 to 60 degree C
Supply inlet:	1/4" BSP taper (F)
Hose length:	0.5m

## Hi-Flo Air Line Inflator with Twin Open Ended Connector

Manufactured and certified to Directive 86/217/EEC

Expert Quality, new and improved MK4 airline inflator. Its industrial quality fabrication makes it suitable for use on garage forecourts and tyre fitting bays. Fitted with a twin open ended connectors, 20% larger viewing window, stronger yet lighter body and increased accuracy. Supplied with calibration certificate.

Pressure range:	0-9.6bar/0-138psi
